The Arizona Board of Regents voted today on setting tuition increases for the academic year 2007-2008 at the three state universities. The board approved an increase in base tuition of 5 percent for resident undergraduate and graduate students at Arizona State University, Northern Arizona State University and The University of Arizona.

The approval was made with the understanding that the Arizona Board of Regents is seeking a commitment from the Executive and Legislative branches of Arizona government to support a request for an incremental contribution to the Arizona Financial Aid Trust (AFAT), over the \$2.9 million already requested in the FY 2008 budget request, which would be an amount sufficient to offset the difference in the revenue stream to the universities generated by this proposed five percent increase from the university Presidents' base tuition increase recommendations.

The list of rates is attached. Setting the mandatory fees has been postponed until the January 25 – 26, 2007 Arizona Board of Regents meeting, being held at Arizona State University.
